DETAILED ACTION

1. This Office Action is responsive to the Amendment filed on 5/21/07.

Accordingly, claims 9–12 and 14 are currently pending; and claims 1–8 and 13 are canceled.

REASONS FOR ALLOWANCE

2. Claims 9–12 and 14 are allowed.
3. The following is an examiner's statement of reasons for allowance:

–Regarding to independent claim 9, none of prior art of record teaches or suggests an emergency report system, as claimed. Krasner (2004/0142678), previously cited, teaches the claimed system except he fails to teach an emergency report terminal device comprising built-in wireless communication means and control means for transmitting a phone number of a cellular phone, not in communication with said emergency report terminal device, possessed by a user in a vehicle, to an emergency report center when data is transmitted by said built-in wireless communication means, and said emergency report center uses the phone number of said cellular phone, which is transmitted from said emergency report terminal device, to place a call directly to said cellular

phone and establish voice communication to obtain the information about a situation in which an emergency report has been made to thereby establish communications by said built-in wireless communication means and said cellular phone. It would not have been obvious for a person skilled in the art to implement Krasner in view of other prior art of record for leading such the implementation to the claimed invention.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
